

Cumberland Pediatric IPA Achieves Regulatory Compliance with Peak 10's Premier Data Center Services

NASHVILLE, Tenn. (Sept. 21, 2010) – Peak 10 Inc., a managed services company with world-class [data centers](#), is pleased to announce its newest customer Cumberland Pediatric Independent Practice Association. Cumberland Pediatric is a nonprofit organization dedicated to helping physicians efficiently utilize electronic medical records with its main mission of establishing quality managed care contracts and assisting members to develop best practices and procedures in regards to clinical quality management and administrative management. Peak 10 will deliver premier data center solutions and data storage services to enhance the security and availability of Cumberland Pediatric's mission-critical data and applications from within an enterprise-class facility on Peak 10's Nashville campus.

“As a health care organization, it is essential that our mission-critical data and applications are highly secure and available, and in accordance with stringent regulatory compliance requirements,” said JoAnn R. Brundage, executive director of Cumberland Pediatric. “Peak 10's HIPAA compliance certification, local presence and knowledgeable team of experts give us peace of mind knowing we have the added layer of data security and protection that our company needs.”

Cumberland Pediatric helps pediatricians and primary care physicians achieve meaningful use from their electronic medical records. Located in Nashville, the organization serves multiple pediatric practices throughout middle Tennessee.

“Over the years, our team has gained a wealth of experience in implementing specialized solutions that deliver the highest level of security and availability to our growing portfolio of health care clients,” said Drew Fassett, the vice president and general manager of Peak 10 Nashville. “Therefore, we understand just how important it is for an organization, like Cumberland Pediatric, to receive around-the-clock support, increased security and high availability for its mission-critical data to meet regulatory compliance requirements.”

Peak 10 Nashville's managed IT and data center services improve performance and reliability, lower costs and maximize internal resources for customers while keeping their valuable information technology assets close to the business. The company combines its secure, private network and enterprise-class data centers with world-class engineering and support to serve market-leading companies nationwide. As a managed services leader, Peak 10 offers a wide range of technology services, including [virtualization](#), [managed hosting](#), and cloud-based services in a cost-efficient and reliable platform for its customers. The company owns and operates data centers in ten key markets that include Cincinnati, Ohio; Atlanta, Ga.; Raleigh and Charlotte, N.C.; Tampa, Jacksonville and Fort Lauderdale, Fla.; Nashville, Tenn.; Louisville, Ky.; and Richmond, Va.

About Cumberland Pediatric IPA

CPIPA was founded in 2006 to engage in activities that promote the members' health care practices by contracting with health maintenance organizations, preferred provider organizations, entities that contract with intermediaries on a capitated basis, and other similar organizations -- and to assist the members in delivering quality health care to the public.
